U of T is a world-renowned university in a celebrated city where knowledge meets achievement, history meets future and ambition meets inspiration. Leading academics from around the world have rated the University of Toronto number one in Canada and 22nd in the world according to the 2018 Times Higher Education World University Rankings.

Acknowledgment of Traditional Land

We wish to acknowledge the land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and, most recently, the Mississaugas of the Credit River. Today, this meeting place is still home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.
The Greater Toronto Area is the best of all worlds. The city has, at its very core, exceptional diversity: nearly half of Toronto’s residents were born outside Canada. Our city’s living mosaic continues to draw the best and the brightest, who come here seeking world-class culture, business and education in one of the safest cities in North America.

They find it, too, in the Fortune 500 company headquarters along Bay Street and various districts of Mississauga; in research centres throughout the city; in our museums and galleries; in literary, music and film festivals that take place throughout the year; and in numerous educational institutions, among which U of T is a leader.

Toronto is among the world’s TOP 15 best cities for international university students. Toronto scored highest in the area of desirability.

The Economist Intelligence Unit ranked the city of Toronto 4th in the world in its 2017 Safe Cities Index. Toronto was the only North American city to be ranked in the top 10.
The historic U of T St. George campus is the most urban in the U of T triad. The juxtaposition of Gothic architecture and sleek ultra-modernism is a metaphor for the range of offerings within its bounds. Since 1827, a tradition of academic excellence and achievement has driven the University’s aspiration to continue graduating leaders who can and will make significant contributions to the world. U of T St. George’s location in the heart of downtown Toronto provides a rich cultural context for a myriad of learning options. Five direct-entry undergraduate faculties: Arts & Science (including seven colleges); Applied Science & Engineering; Music; Kinesiology & Physical Education; and Architecture, Landscape & Design, as well as the professional faculties, call U of T St. George their home. Students across each discipline have a role to play inside and outside the classroom.

All students within the Faculty of Arts & Science on the downtown Toronto (St. George) campus are affiliated with one of seven colleges. The colleges are a home base for students and provide the advantages of a close-knit community experience within a large research university, including on-campus residences. Academic programs within the Faculty of Arts & Science are not related to college choice.

The colleges are: Innis College, New College, St. Michael’s College, Trinity College, University College, Victoria College, and Woodsworth College.

U of T Mississauga is a student-centred research community highly respected for its academic programs and research contributions. Located in a park-like expanse in Canada’s sixth largest city, U of T Mississauga is approximately 20 miles from Toronto city centre and directly accessible by U of T shuttle bus and public transit. U of T Mississauga’s unique educational programs include: Canada’s premier Forensic Science degree program; a Department of Language Studies that delivers courses in 10 languages; two business degree options (BCom, BBA); and joint programs with Sheridan College in Art and Art History, Theatre and Drama, and Communication, Culture, Information and Technology. It is also home to one of the academies of U of T’s Faculty of Medicine and the Institute for Management and Innovation. The University has strong ties with the City of Mississauga as well as its residents, which leads to learning experiences throughout the city that include opportunities in government, business and the arts.

U of T Scarborough students get a head start on their futures through arts, science and business co-operative learning programs as well as internships, community engagement, leadership development and hands-on research with professors who are uncovering the keys to a healthy planet, a healthy population and a flourishing global society. Within U of T Scarborough’s close-knit community, students can create one-of-a-kind learning experiences. You’ll find programs in management, arts and sciences, along with specialized programs such as Mental Health Studies and International Development Studies, as well as unique joint degrees, combined bachelor/master degrees and double degrees. U of T Scarborough’s dynamic and growing campus is surrounded by parklands and at the heart of a multicultural neighbourhood. It is a showcase for new buildings by award-winning architects, including the Toronto Pan Am Sports Centre and the Environmental Science & Chemistry Building.

U of T’s library system is ranked third in North America.
Unparalleled Choice

U of T offers exceptional range, choice and depth of study. Undergraduate students can choose from more than 700 academic programs, and they can learn from the best minds and most dedicated teachers in each of those fields.

Build Your Own Degree

When building an Arts, Science, or Business degree, you’ll have the opportunity to choose from Specialist, Major, and Minor program options. Overall, in an undergraduate degree, students will take a minimum of 20 credits in a variety of subjects. Students are able to build degrees to match their own interests by mixing program areas into one Specialist, two Majors, or one Major & two Minors.

50+ language programs

700 undergraduate programs

90% of our most accomplished researchers teach undergraduate classes
U of T offers dynamic student life opportunities and boundless choices to explore. Choose from more than 1,000 student organizations, athletic teams and academic associations—or create your own.

The World Awaits
Our students take what they learn and put it to work in labs and boardrooms—on hackathons and archaeological digs—and in concert halls, city halls, and the community at large. U of T’s research clusters are woven into the economic fabric of the continent. Not only do we contribute over $15 billion to the Canadian economy each year through private and nonprofit partnerships in every industry, we’re North America’s #1 public university for global employability, the birthplace of 160+ research-based startups in the last five years alone, headquarters to 1,000+ thriving student clubs, and home to 50+ co-op programs in the arts, sciences, business, and engineering.

Through co-op placements, internships, field schools, international course modules, and research opportunity programs, you’ll make industry contacts and lifelong friends while tackling pressing challenges like climate change, quantum cryptography, and homelessness. Study the history of German cinema in Berlin, the rise and fall of Bronze Age powers on the Anatolian plateau, or bond valuations right here in Toronto, home to the world’s largest stock exchange for energy firms. Learn more at uoft.me/global-learning.

Intramural Sports
You might not be able to play for the Toronto Raptors, but with 10,000+ students competing in our intramural sports leagues every year, you’ll love being a U of T athlete. Intramural sport—our most popular co-curricular offering—is a major part of life for thousands of students across our three campuses. Enjoy our state-of-the-art facilities, and show us your skills. Our intramural sports include: badminton, basketball, broomball, European handball, field hockey, flag football, hockey, indoor cricket, indoor soccer, inner tube water polo, lacrosse, rugby, soccer, softball, squash, table tennis, tennis, track meet, ultimate frisbee, volleyball, and water polo. Learn more at uoft.me/sports-rec.

Gain Experience & Invest in Your Future
International students are able to work part-time while studying and may be able to incorporate paid work terms into their academic program. Part-time work on or off campus allows you to earn extra spending money. Not only is it an excellent opportunity to gain practical Canadian work experience, but it allows you to network and expand your social circle. You may obtain permission to work part time off campus following six months of study. You may also stay in the Greater Toronto Area and work full time during holidays and between academic terms. As a graduating international student from a Canadian university, you may be allowed to stay and work in Canada, full time, for up to three years. Full details are available through the Centre for International Experience at uoft.me/cie.

Change Your Mind, Change the World
Anchored by one of the world’s most culturally diverse cities, and home to speakers of nearly two hundred languages, the Greater Toronto Area is a metropolis beyond compare.

Here at the University of Toronto —Canada’s #1 university for global employability—students have access to opportunities for study, research, and externships in 160+ institutions across 40+ countries. Each year, we award over $1.5 million in bursaries and grants to foster students’ outbound learning. Whether you’re coming or going, our team of learning abroad advisors at the Centre for International Experience (CIE) is here for you. Unearth a world of opportunity at learningabroad.utoronto.ca.

ON-CAMPUS SUPPORT
Not all learning takes place in the classroom, and not everyone learns in the same way. Finding the best way to balance school, work, home, and health can certainly be daunting! We get that life is complicated, and we’re here to help. Meet with a Learning Strategist at Accessibility Services, an International Transition Advisor at our Centre for International Experience, a Campus Chaplain at the Multi-Faith Centre, or a nurse, doctor, counsellor, or social worker at Health & Wellness. We’re here for you.

Housing Guarantee
Residence is guaranteed for all new full-time students entering their first year of a postsecondary program for the first time, provided that they have indicated their interest in residence by completing the university’s common residence application (MyRes) by March 31, and have received and accepted an offer of admission by June 1. Find out more at uoft.me/res-guarantee.
SCHOLARSHIPS & FINANCIAL AID

All applicants are considered automatically for admission scholarships based on their academic performance. Scholarship offers are sent electronically by Parcimail/Naviance if your school does not use Parcimail/Naviance, you can upload your transcripts through the Join of T Applicant Website. Engineering applicants should upload directly to the Engineering Applicant Portal.

STUDY PERMITS & IMMIGRATION

If you are not a Canadian Citizen or Permanent Resident of Canada, you must obtain a valid study permit before entering Canada. Required documents typically include: proof of admission to a study program, evidence of adequate funds, proof of medical insurance, and other documentation required by the issuing office. Study permit information is available through Immigration, Refugees and Citizenship Canada (IRCC) at http://www.canada.ca/en/immigration-refugees-citizenship.html.

International students are eligible to work on or off campus part-time during the school year and full-time between sessions. Eligible international students can stay and work in Canada for up to three years after graduation. Visit uoft.me/apply for more information.

ADMISSION REQUIREMENTS

The minimum requirements for admission vary by program. For more on admission requirements, application procedures and deadlines, visit our website at future.utoronto.ca.
